Art Unit: 1794

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-6 are indefinite as "grains" and the corresponding values. It is not clear whether the grain number is a quality rating or a flow rate, or what units are used if it is a measurement of flow.

Claim 1 is indefinite as to "and/or" as it is not clear whether the lower extension is claimed.

Claim 1 is indefinite as to "(determined by the method of analysis described herein)" as this phrase appears unnecessary and confusing at best as no method of analysis is described within the claim.
